

How to start and Maintain a Diabetic Shoe Program: May 15, 2004
Jonathan Moore DPM, MS

A comprehensive primer for making sure your Diabetic Shoe Program works efficiently and effectively in your community.

A review and examination of the following components will be discussed:

1. Making sure your CMN looks good and represents your practice.
2. Educating your primary doctors about why diabetic shoes are a benefit.
3. How to stand out among the crowd of DME supply stores and pharmacies
4. How to order shoes and what kind of shoes are best for specific types patients
5. Making sure all your paper work and chart notes line up in the event of an audit
6. Fitting right the first time/ Tools to stay accurate
7. Who qualifies and who doesn't.
8. Making sure all you do and send out from your office represents you WELL as a physican.
